PIPETITE® PRODUCT RANGE

FLEXIBLE, SELF-SEALING WALL BOOT FOR PIPE PENETRATIONS IN HYGIENIC ENVIRONMENTS

Hygienic, FDA certified silicone rubber, compatible with most cleaning solutions - ideal for use in clean room situations

IP68 Rated

Temperature rated from -50°C to +250°C

Pre moulded cut lines with engraved measurements - easily adapted for most pipe diameters

High quality 316L polished stainless steel rings with pre drilled holes for fasteners

Self sealing lips eliminate the need for caulks or sealants

Pipetite forms a flexible, durable, sanitary seal, allowing for movement of pipes without breaking the seal

Pipetite Anchors are specifically designed for installing Pipetite Standard, Flat, ReBoot and Multi Grommets for an effective seal

Pipetite Cutters enable easy cutting of Pipetite to required size

Pipetite Flat allows a wall boot to be fitted where there is insufficient space for a Pipetite Standard, or to hygienically cover holes in panels

Pipe n Pipe seals around pipe in pipe installations, and allows for different pipe sizes

Pipetite ReBoot split design with 316L stainless steel ladder allows installation around existing piping

Pipetite Grommets and Multi grommets create a watertight, reliable seal around wires and tubes as they enter cabinets and

Pipe n Pipe ReBoot is ideal for retrofitting around pipe in pipe installations
