# About ITS

An experienced hygienic equipment specialist, Industrial Trading Solutions Ltd have over 100 years combined technical knowledge and applied skills in the food & beverage, brewery, distillery, dairy, pharmaceutical and personal care industries.

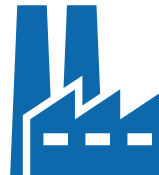

Formed in 2002 and based in the Midlands UK, ITS now distribute a multitude of top industry brands with a fast service, at competitive prices and all with an unmatched customer ethos.

Our technical team can support you with large system projects, one-off product purchases and maintenance & repair services. As an ISO9001, ISO14001 & ISO45001 accredited business, you can expect the very best service and the highest standards from Industrial Trading Solutions Ltd.

## DISTRIBUTING SOLUTIONS ♦ PROCESSING EXCELLENCE

"Operating within a safe and transparent culture of respect and innovation, we are dedicated to positively conduct ourselves with high ethical standards and integrity. We will continue to invest in and develop our staff, reliable product ranges and services provided, to ensure the high standards expected with the market we operate are upheld or exceeded. As the complete solutions supplier of choice, we value all stakeholders of the business and build strong relationships to reinforce our unrivalled reputation and future growth."

*Peter Jeans, Company Founder and Chairman*

# Pipetites for processing facilities and other hygienic environments.

## A new solution to an old problem

Sealing pipes where they pass through walls or ceilings has been a source of aggravation and repeated maintenance costs for many years. And with all processing plants being required to control their processing environment to avoid contamination from moisture, pests and airborne particles, unsealed gaps in walls, floors and ceilings are a prime source for these issues. By sealing penetrations, facilities eliminate one such potential hazard, avoiding risks to health and ensuring a safe product.

So here we have a simple, hygienic, and inexpensive solution

Pipetite is a flexible, self-sealing, sanitary wall boot that seals around tubing or pipe penetrations.

It's unique design eliminates the need for sealants and is easily adapted to fit most pipe or tube diameters.

Constructed of hygienic white silicone, 316 stainless steel and with a temperature rating of -40°C to 260°C, this totally self-sealing boot, fits snugly to walls and ceilings, whilst giving superior flexibility for movement, without causing damage or breaking the seal.

Pipetite also comes with pre-drilled holes for quick and easy installation, so no messy clean-ups – and it makes unsightly gaps look neat and tidy!

## Pipetite is great for:

- Sealing new or existing piping
- Covering openings in ceilings, walls, floors or areas of plastic or sheet metal.
- Sealing around cables, tubing, hose, or wires
- Seals that are exposed to sunlight, cleaning solutions or other harsh environments
- Tube-in-tube floor or wall transitions where fire, pressure or other regulations need to be adhered to

# Pipetite Standard

Pipetite is the latest in sealing technology for use in wall and ceiling penetrations. Pipetite can seal a connection while allowing for significant movement of the pipe. Pre-drilled holes make installation simple, and a large range of sizes are available.

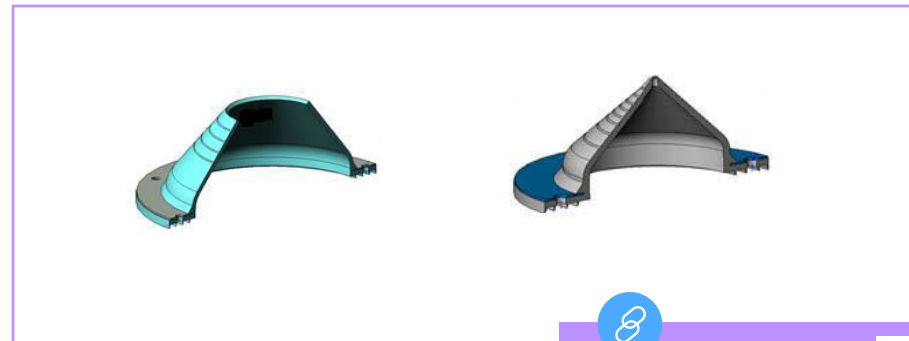

Part Number	Size
PT0-25	0-25mm/0-1"
PT0-65	0-65mm/0-2.5"
PT0-95	0-95mm/0-3 3/4"
PT70-135	70-135mm/2.75-5.3"
PT100-180	100-180mm/3.9-7.1"

## Features

- Available in five sizes to suit 0 – 180mm tube or pipe.
- Hygienic white silicon ( FDA certified )
- 316 stainless steel support ring.
- Total self-sealing – no sealant required.
- Seal is flexible to accommodate movement.
- No cracking of silicone.
- 260°C temperature rating.
- No clean-up after installation.
- Materials compatible with cleaning solution.
- Predrilled for quick and easy installation.

# Pipetite Reboots

Pipetite's base incorporates self-sealing lips that provide flexibility and eliminate the need to "pack" the product off the wall. Silicone is not required during installation. Pipetite can be adapted to fit most pipe or tube diameters and allows the pipe to move significantly without causing damage or breaking the seal between the wall and the pipe.

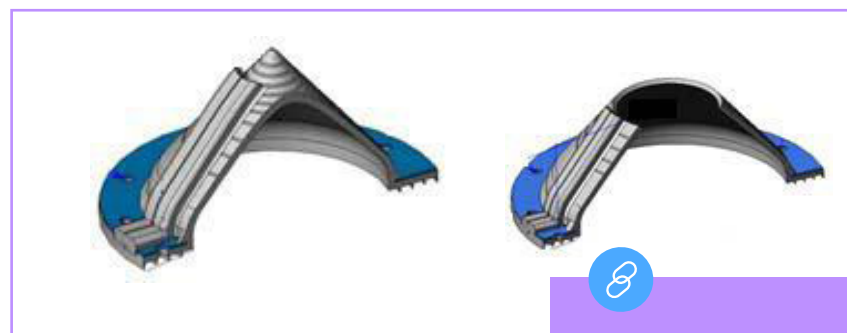

Part Number	Size
PTRB0-65	0-65mm/0-2.5"
PTRB0-95	0-95mm/0-4"
PTRB70-135	70-135mm/2.75-5.3"
PTRB100-180	100-180mm/3.9-7.1"
PTRB125-275	125-275mm/4.9-10.8"
PTRB165-380	165-380mm/6.4-14.9"

## Features

- Available in three sizes to suit up to 380mm tube or pipe
- Hygienic white silicon & 316 stainless steel
- Total self-sealing – no sealant required
- Split design fits easily around existing pipe
- Seal is flexible to accommodate movement
- No cracking of silicon
- 260°C temperature rating.
- No clean-up after installation
- Materials compatible with cleaning solution
- Predrilled for quick and easy installation

# Pipetite Grommets

Pipetite Grommets base incorporates groove suitable for sheet steel up to 3.0mm thick. Installed Grommet provides full flexibility. Silicone is not required during installation. Grommet can be adapted to fit most pipe or tube diameters and allows the pipe to move significantly without causing damage or breaking the seal between the sheet and the pipe.

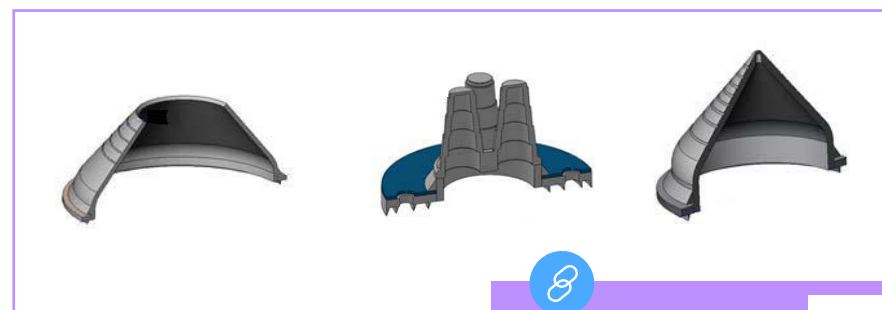

Part Number	Size
PTGROM0-25	0-25mm/0-1"
PTGROM0-65	0-65mm/0-2.5"
PTGROM0-95	0-95mm/0-4"
PTGROM70-135	70-135mm/2.75-5.3"
PTGROM100-180	100-180mm/3.9-7.1"
PTGMULTI0-25	Size 0-25mm/0-1"

## Features

- Perfect solution for penetrations through machine sides, wall plates, vessel insulation.
- Available in five sizes to suit 0 – 180mm tube or pipe
- Hygienic white silicon. FDA certified.
- Total self-sealing – no sealant required
- Seal is flexible to accommodate movement
- No cracking of silicon
- 260°C temperature rating.
- No clean-up after installation
- Materials compatible with cleaning solution

# Pipetite Flats

ITS' range of sealing solutions in flat versions where space is limited or unsightly holes need covering.

Part Number	Size
PTF0-65	0-65mm/0-2.5"
PTF0-95	0-95mm/0-4"
PTF0-135	0-135mm/0-5.3"
PTF0-25	0-25mm/0-1"

# Pipetite Pneumatic Grommet

Pipetite Pneumatic Grommets base incorporates groove suitable for sheet steel up to 3.0mm thick. Using the same penetration hole size means uniformity on design and neat lines on installation. Installed Pneumatic Grommet provides full flexibility. Silicone is not required during installation. Grommet is available to suit four standard diameters and allows the tube to move significantly without causing damage or breaking the seal between the sheet and the tube.

Part Number	Size
PNG6	6mm / ¼"
PNG8	8mm / 5/16"
PNG10	10mm / 3/8"
PNG12	12mm / ½"

## Features

- Perfect solution for penetrations through machine sides, solenoid panels, wall plates
- Available in four sizes to suit 6, 8, 10 & 12mm pneumatic tube or electrical wires
- Hygienic white silicon. FDA certified.
- Total self-sealing – no sealant required
- Seal is flexible to accommodate movement
- No cracking of silicon
- 260°C temperature rating.
- No clean-up after installation
- Materials compatible with cleaning solution

# Additional Services

As the ONLY UK distributor of Pipetite products, Industrial Trading Solution Ltd can supply Pipetite from stock, to anywhere in the UK and fast.

ITS are process flow equipment specialists, with a multitude of top equipment brands available and over 100 years combined experience in the food and beverage, brewery,

dairy, pharmaceutical and personal care industries. Our in-house technical staff can support you with large systems projects, one off product purchases, spares, and even maintenance or repair services.

You can trust ITS to find the best solutions for all of your hygienic flow requirements.
